Welcome

Hi all,

Some of you will know who I am, if not my name is Cliff Mills and I am here today to sell the last of my penny arcade collection as have decided to 'empty my coin boxes' at this auction. Amongst my machines are a number of other collectors machines being sold in this auction.

I have been collecting machines for over 35 years, and enjoyed every minute of it. As I have always thought that the **chase is better than the kill** !

I have located many of the machines from my collection in the deepest darkest amusement arcade cellars from America, Gibratler, Isle of Man, England, Scotland, Ireland and Wales.

When the machines have been tracked down and shipped back, what ever the condition they were bought in, as some were very distressed, I would painstakingly restore them back to life.

I would like to thank my loving wife and family for being very understanding, as on many occasions on the hunt for machines I would say to the family "Lets go to the seaside for the weekend", which would involve a trip via seaside piers near Carlise, Northumberland, Ayre and Aberdeen. My family would be in the back of the car, and one would say "Dad when can we go for an ice cream ?, and I would reply "When the man sells me all the penny arcade machines"....

I hope you all get as much pleasure out of collecting and restoring penny arcade amusements machines as have had over the years.

Enjoy the sale and good luck to you all.

Cliff

The Auction and Conditions of Sale

Please refer to our standard conditions of sale, as printed at end of catalogue. By making a bid, you acknowledge that you have accepted these terms.

The auction will commence at 12.00pm and proceed at approximately 60-80 lots per hour. Lunch and tea breaks, if any, will be at the Auctioneer's discretion.

Buyers Premium

A buyers premium of 5% of the hammer price will be added to each lot.

Payment

There is a choice of methods of payment :-

1. CASH. Items removed by 5pm on sale day
2. CHEQUES. By prior arrangement only
3. 25% cash deposit, and make arrangements to pay the remainder and collect within 14 days. 2% storage fee (£10 min)

PLEASE NOTE: Unfortunately we are unable to accept debit or credit card payments. Please note: Payment may be made by cheque by *prior arrangement* only. All purchases should be removed from the salesroom by 5pm on the sale day or within 14 days if you paid 25% deposit.

Catalogue Descriptions

Are for identification purposes only. It is up to prospective purchasers to satisfy themselves as to the condition of each lot. Descriptions in this catalogue (e.g. "Restored" or "Good Working Order") are as supplied to us and **are not our opinion**. All sizes given are approximate.

All Electrical Items

Are sold as non working display items and are unsuitable for connection to the mains electricity supply, although some may be seen to be working in the saleroom or described as such in the catalogue. It is up to the purchaser to have any electrical items tested and rewired if necessary by a qualified electrician before use. **NO SMOKING** is permitted in the salesroom. **CHILDREN** are to be supervised at all times

Suitable Lots

Vintage slot machines, all types of collectible coin-operated machines, parts and related ephemera and books (by "vintage" we generally mean pre-1971, but slightly later items are accepted). We do not accept modern pub type fruit machines (AWPS). Vintage fairground items including complete or part rides, stalls, attractions, memorabilia, posters, signs, books etc. Vintage radios, musical boxes, automata, vintage communication technology etc. Circus memorabilia.

Reserve Prices

If you choose to set a reserve price, set it at the absolute lowest price you are prepared to sell the lot for. Hopefully it will sell for much more, but it is pointless to say that would have accepted less after an item fails to make your reserve.

The lot may be sold at the Auctioneer's discretion within one bid of the reserve if the bidding almost reaches the reserve (e.g. an item reserved at £400 may be sold for £380). Please state "FIRM RESERVE" in your description if you do not want us to do this. This information is private and **will not** be disclosed to any potential buyer.

If in the opinion of the Auctioneers the reserve is set unrealistically high, you will be advised to change it. If you opt to maintain the reserve against this advice, the lot will incur a charge of 5% of the reserve price if it does not sell. In all other instances, there will be no commission charged for unsold lots. Any queries, please contact us on 01256 895734 or email SCAuctions@pennymachines.co.uk

Payment to Vendors

Successful vendors may collect payment in cash on the day of the sale for all items which have been purchased for cash. In the case of items which have been secured with a 25% deposit, a cheque will be sent within 14 days.

Auction Items:

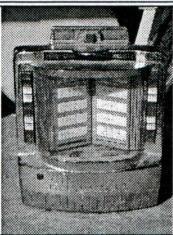

Buyers must register for a bidding number (returnable £1 deposit).

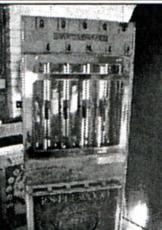

Viewing on Saturday 21st May 2005 from 12 pm – 4:30pm & from 9am on Sunday until start of sale. Sale on Sunday 22nd May 2005 commencing 12 noon.

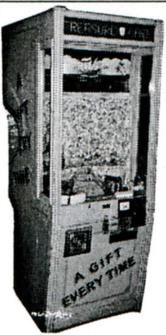

Look at website for late entries and pictures of the lots on offer

Standard Conditions of Sale

1. The Auctioneers reserve the right to refuse admission to, or eject persons from the Auction premises without giving reason.
2. All lots are sold as seen, with all faults, imperfections and errors of description howsoever caused. Buyers must satisfy themselves as to the condition of the lot at the time of the sale before making a bid. Catalogue descriptions are as supplied to the Auctioneers by the vendors and are provided as a guide to identification of each lot only.
3. Each bidder by making a bid on any lot acknowledges that he/she is fully satisfied with the condition of the lot and the conditions of sale as set out herein, and any amendments to conditions printed elsewhere in the catalogue, or as made available or displayed on the day of the sale.
4. The highest bidder on each lot shall be the buyer of that lot. Ownership of such lot shall not pass until payment has been made in full to the Auctioneers. At the fall of the hammer, the buyer may be required at the Auctioneers' discretion to pay for in full, or pay a deposit against the lot just bought, and if the buyer fails to do so, the lot may be re-offered for sale at once.
5. There is a 5% buyer's premium for this sale.
6. No lot may be removed from the auction premises until paid for. At the fall of the hammer, all lots are at the risk of the buyer. The Auctioneers shall not be responsible for any loss or damage howsoever caused.
7. The Auctioneer shall not pay out on, or contra against any lot or lots until payment in full has been received from the buyer. In the event of non-payment from a buyer for a lot, the lot shall be deemed unsold and the buyer's details shall be made available to the vendor for perusal of the defaulting buyer. Details of the defaulting buyer shall be made available to other Auction Houses and published elsewhere at the Auctioneers' discretion to help combat fraud. Details may also be passed to a credit reference agency. The Auctioneers accept no responsibility whatsoever on account of the defaulter.
8. The Auctioneers shall not disclose the identity or other information about any vendor or buyer except under condition 7.
9. The Auctioneers have absolute discretion to re-offer a lot which is disputed, divide any lot, combine one or more lots, refuse bids, stop the Auction or alter the order of the sale without prior notice.
10. V.A.T. at the current rate is payable on any lots marked with an asterisk (*)
11. Failure to read and understand these conditions shall not provide exemption from them.
12. All persons attending the Auction or Preview day, do so at their own risk, and shall have no claim against the Auctioneers in respect of any accident, damage, injury or loss, howsoever caused.
13. All breakages and damage to lots must be paid for in full at the reserve price, or at a price set by the Auctioneers if there is no reserve or if the reserve stated is grossly above or below the market value of the item as determined at the Auctioneers' discretion. Any damage to the premises must be paid for in full.
14. All electrical items are sold as non-working display items only, even though they may be seen working in the salesroom. Buyers should have each electrical item they buy tested and if necessary re-wired by a qualified electrician before use. The Auctioneers accept no responsibility for the electrical safety of any item offered for sale.
